

1º Questão:

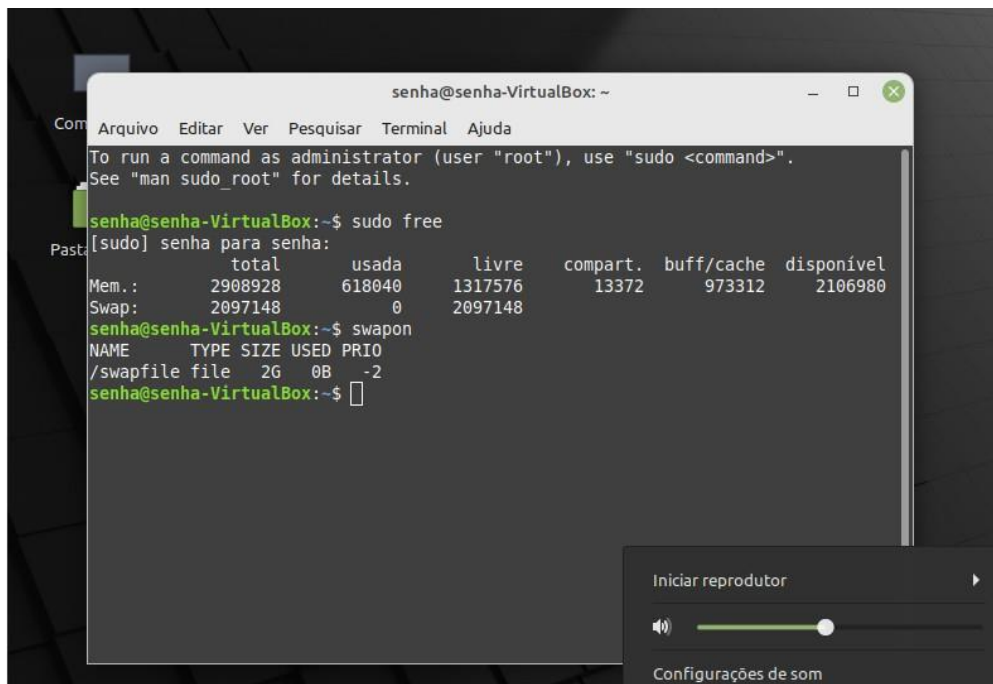

Resposta: Memória principal: 2908928 MB total , 618040 MB em uso e 1317576 MB livres.

A terminal window titled 'senha@senha-VirtualBox: ~' with a menu bar (Arquivo, Editar, Ver, Pesquisar, Terminal, Ajuda). It shows the execution of the 'free' command using 'sudo'. The prompt asks for the password 'senha'. The output is a table of memory statistics.

```
senha@senha-VirtualBox:~$ sudo free
[sudo] senha para senha:
              total        usada        livre      compart.  buff/cache  disponível
Mem.:          2908928        618040       1317576         13372       973312       2106980
Swap:          2097148            0       2097148
```

2º Questão:

A terminal window titled 'senha@senha-VirtualBox: ~' with a menu bar (Arquivo, Editar, Ver, Pesquisar, Terminal, Ajuda). It shows the execution of 'free' and 'swapon' commands using 'sudo'. The 'free' command output is the same as in the first image. The 'swapon' command output shows the details of the swap file.

```
senha@senha-VirtualBox:~$ sudo free
[sudo] senha para senha:
              total        usada        livre      compart.  buff/cache  disponível
Mem.:          2908928        618040       1317576         13372       973312       2106980
Swap:          2097148            0       2097148

senha@senha-VirtualBox:~$ sudo swapon
NAME      TYPE SIZE USED PRIO
/swapfile file  2G   0B   -2
```
